

## Angola water well drill rig manufacturers manufacturer

Where can I find drilling equipment?

At SIMCO, find drilling equipment including water well drilling rigs, geothermal drilling rigs, drill rigs, drill equipment and more. Request a quote!

What is a water well drilling rig used for?

Backed by over 50 years of experience in the drilling industry, our drill rigs are used for water well and geothermal well drilling, geotechnical and environmental drilling, mineral exploration, geothermal wells, construction and utility work, and a wide range of other diverse applications. Our featured water well drilling rig is the SIMCO 7000.

What is the best water well drilling rig?

Our featured water well drilling rig is the SIMCO 7000. The 7000 is truly the work horse of the SIMCO water well drilling rigs stable. With an auto indexing drill rod carousel (10 or 16 drill rod) and up to 1,100 foot air or wet rotary drilling depth, the SIMCO 7000 is the ideal geothermal drilling and water well drilling solution.

What drill rig is best for geothermal drilling?

With an auto indexing drill rod carousel (10 or 16 drill rod) and up to 1,100 foot air or wet rotary drilling depth, the SIMCO 7000 is the ideal geothermal drilling and water well drilling solution. This truly state of the art drill rig will make short work of any geothermal drilling and water well drilling jobs.

Why should you partner with original equipment manufacturers (OEMs) in Angola?

By partnering with Original Equipment Manufacturers (OEMs) and adhering to local and international regulations, especially in Angola, we aim for excellence and sustainability in the oil and gas industry. Join us in shaping a more efficient future.

What is the oil and gas wells unit?

Our Oil and Gas Wells Unit specializes in providing integrated solutions for the exploration and production industry. With an approach focused on efficiency and safety, we offer advanced drilling services, including the management of state-of-the-art equipment and a highly qualified workforce.
