

Chad down-the-hole drilling rig rental winch

What is a drilling rig winch?

Drilling rig winches are a basic type of winch that are produced to satisfy the demand of both domestic and international markets. Used for operating the drill or auger in and out of a hole. While drilling the winch is able to release the brake so the cable can be pulled off the drum as the auger drills deeper.

Why should you rent a drilling rig?

In the dynamic drilling industry, there is nothing more important than high-quality equipment rentals. Drill rig rentals not only provide flexibility but also ensure that drilling contractors are getting the latest and best equipment without the complexities of owning a rig.

What is a drill winch used for?

Used for operating the drill or auger in and out of a hole. While drilling the winch is able to release the brake so the cable can be pulled off the drum as the auger drills deeper. Contact us to find out the model best suited for your needs.
