

Diamond drilling rig hire premium

What is a diamond drill rig used for?

Suitable for use on brickwork, blockwork, tiles, and most masonry, the HSS range of diamond drills offers power and precision for a wide array of applications. Whether you use a light-duty diamond driller kit or a larger, heavy-duty rig, with the appropriate diamond core drill bit drilling through concrete and masonry will be effortless.

What services does diamond drilling UK offer?

Here at Diamond Drilling UK, we offer a range of services related to concrete cutting and drilling from our base in East Sussex. As part of our repertoire, we provide customers with diamond wall chasing, which refers to cutting or creating a channel in concrete or block walls or flooring.

What types of drill rig rentals are available?

In our rental equipment inventory, we offer various types of drill rig rental options: coring rigs, exploration rigs, direct push rigs, geotechnical rigs, environmental rigs, truck haulers, and support equipment. A core drill rig is a specialized piece of equipment for core sampling.

Which coring rigs are available for rent?

At Rig Source, we have a variety of coring rigs for rent from top-of-the-line brands including Geoprobe, Versatran, and GTech. These rigs are primarily used for mineral extraction, and our exploration drilling rigs help discover valuable resources below the Earth's surface.
