

# Drilling rigs count in vietnam

Will Vietnam see a rise in oil and gas drilling rigs in 2025?

Hanoi (VNA) - Vietnam is projected to see a sharp rise in demand for oil and gas drilling rigs in 2025, underpinned by the accelerated implementation of a number of large-scale energy projects, including Dai Hung Phase 3, Su Tu Trang Phase 2B, and Block B - O Mon.

When will PV drilling 8 rig start operations in Vietnam?

Cuong revealed that the PV Drilling 8 rig, newly acquired in 2024, is slated to commence operations in Vietnam by September, while PV Drilling 6 will return from overseas to serve a contract at Block B - Phu Quoc in mid-2027, positioning the company for stronger revenue growth.

What is the weekly rig count?

Updated each Friday, the Weekly Rig Count provides accurate offshore drilling rig data by major region and globally. Our team of global analysts compiles oil rig data daily through direct contact with rig owners and offshore operators to derive dependable figures. The rig count tables below include all jackups, semi-submersibles, and drillships.

How does drilling affect fishing in Vietnam?

Impact on Fisheries Vietnam's coastal communities rely heavily on fishing for their livelihoods. Drilling activities can disrupt fish habitats and lead to declines in fish populations, threatening food security and income for many families. The noise from seismic surveys used in exploration can also have negative effects on marine animals.

Where can I find information on the offshore rig fleet?

The information provided and much more data on the offshore rig fleet can be sourced via the S&P Global proprietary offshore rigs information products, RigPoint and RigBase. For additional information, contact: Rig Support View the Petrodata Offshore Rig Day Rate Trends Report.
