

Environmental precision drilling rig 465

Who is Precision Drilling?

Precision Drilling is one of the premiere onshore drilling companies in North America, we offer a wide range of High-Value services and innovative technologies to help make your next project safer and more efficient. The Precision Drilling rig locator map is updated weekly with the Precision Drilling rig locations. Click to Access Map

What is a geotechnical drill rig?

We offer reliable and unique drilling solutions, ensuring your projects are powered by precision and high quality. Geotechnical drill rigs are specialized equipment for the rigorous demands of construction and geological projects. These rigs play a key role in geotechnical investigation, providing the capability to assess ground conditions.

Where are precision drilling rigs used?

These rigs are used in both onshore and offshore drilling operations. Geographic Presence: While Precision Drilling is based in Calgary, Alberta, Canada, it operates globally, with a significant focus on the North American market. The company has a presence in key oil and gas regions in Canada, the United States, and internationally.

What types of drill rigs does rig source offer?

Rig Source offers both new and used auger drilling rigs as well as environmental direct push units. We proudly offer, Diedrich, CME, Mobile, Acker, and Geoprobe®. At Rig Source, all of our geotechnical & environmental drill rigs have been selected based on their reputation of excellence.

What is a precision Super single rig?

The Precision Super Single has the lowest load count of our fleet and is a lightning-fast mover. A pad walking Super Single version is available. The walking system utilizes our unique umbilical connection system allowing the rig to move from well to well quickly with virtually no moving equipment.

What is a limited access environmental drill rig?

A limited access environmental drill rig can be used in extremely tight and remote sampling locations. Large platform/big performance rotary sonic drill rigs can also be used for deep, unconsolidated sample data
