What is a core drill rig?

A core drill rig is a specialized piece of equipment for core sampling. They allow professional drillers to extract a piece of the ground by drilling cylindrical holes in the surface, simplifying the drilling process and eliminating the need for purchasing specialty equipment.

Why should you rent a drilling rig?

In the dynamic drilling industry, there is nothing more important than high-quality equipment rentals. Drill rig rentals not only provide flexibility but also ensure that drilling contractors are getting the latest and best equipment without the complexities of owning a rig.

Can you rent a concrete core drill?

United Rentals offers a comprehensive fleet of concrete core drill rental options that are excellent for plumbing, mechanical or electrical work. Our core drills can remove cores with up to a 4-inch diameter and are ideal for removing cylinders from concrete walls and slabs. Get these exclusive online rates by renting through our website or app.
