What is a pace X800 rig?

With unmatched batch drilling capabilities, the PACE X800 rig is configured to meet an operator's current and future drilling needs. It provides the necessary horsepower, pressure and torque to be delivered to the bit, allowing operators to maximize lateral length on directional and horizontal wells.

What is a Nabors pace X rig?

Nabors PACE X rigs are designed specifically for multi-well pad drilling. They streamline move times over short distances by limiting the components needed for rig up and rig down, resulting in faster drilling and reduced flat and move times. As lateral lengths continue to increase, drillers need a rig with more power and greater tripping speed.
