

Payment plans for borehole drilling rig

How much does a drill rig cost?

How Can I Pay for that New Drill Rig? Contractors may be in trouble if they charge \$17 per hour to install a water well, but their \$1 million drill rig costs about \$25 per hour to operate. Heavy equipment to install wells is expensive, but homeowners don't consider their well as much as, for example, cabinets.

Does drill Financing Group Finance directional drills and rigs?

Often, equipment like drills and drill rigs falls outside of the bank credit window. Unlike banks, we have no age or collateral restrictions. We specialize in heavy machinery and finance lots of directional drills and drill rigs. Drill Financing Group is proud to offer leases and loans with more term options and greater flexibility.

Can a specialty drill rig Drill a hole?

But this type of specialty drill rig can also drill a hole in the budget, making down the hole drill rig financing important. When a skyscraper, oil platform, or other large engineering project is built, knowing the makeup of the earth underneath goes a long way in making sure the structure above is on solid ground.

Why do water well drilling companies need cable tool drill rig financing?

Cable tool drill rig financing is important, which is why water well drilling companies look for an experienced cable tool drill leasing partner. Top hammer drill rigs (also known as drifter drills) are essential for many types of rock drilling.

Should you buy or lease a used drill rig?

Used for mining, exploration, water wells, and more, drill rigs are essential. They are also expensive, making a strong market for pre-owned drill rigs. Financing and leasing used drill rigs thus becomes a must for most companies, as even used pieces can be a significant part of a yearly budget.

What is a drill rig used for?

Drilling rigs have all manner of configurations and uses. One of the more popular is a cable tool drill rig, which is typically used for water well drilling. These machines stand tall, and drill deep for residential water (the drill is used for other applications too, but water is the big one.)

6.1 Non-Payment: If Owner fails to make payment due to Water Well Drilling Contractor for a period of _____ days after the submission of a Payment Application for Work that is not ...
