What are onshore drilling rigs?

Onshore drilling rigs are also known as land rigs; and are used in petroleum industry to drill deep holes under the earth's surface for oil and gas extraction. AI-powered self-service platform for all your sourcing decision needs across 1,200+ categories like Onshore Drilling Rigs.

Who is oil rigs now?

Oil Rigs Now, LLC (ORN) are consultants in the sale and sourcing of new and used land drilling rigs, new and used mobile drilling rigs, and new and used offshore rigs and vessels from the USA, Canada, Europe, and Asia.

Where are drilling rigs made?

Most new onshore rigs, both drilling and work over rigs, are built by OEMs in China. In the US, the larger vertically integrated land drillers have in-house manufacturing operations, so they will outsource some equipment construction, but assemble the new rigs at their own facilities.

What is rig equipment?

Our Rig Equipment team designs, manufactures, and sells land rigs, complete offshore drilling packages, and drilling rig equipment and components designed to mechanize and automate complex drilling rig processes. Our prolific portfolio includes several industry-first equipment innovations including the top drive and iron roughneck.

Are oil drilling rigs 'severe-duty engineered'?

Our 50 years of experience in the energy and industrial industries has made our name synonymous with "severe-duty engineered," so you know you're getting an oil drilling rig you can trust. The drilling rigs in our collection are designed to handle the needs of any project, no matter how tough, in the safest and most efficient way possible.

What is the onshore drilling rig market report?

Material & Other Costs The report gives the market overview, supply trends and market analysis of the North American and APAC on shore drilling rig market. It lists out the global demand drivers for the drilling rig industry. It provides the cost breakup and key cost drivers of the onshore drilling industry.
