

## Sullair air

What is a Sullair air compressor?

Commercial and industrial air compressors. Portable Air Power for construction & mining, and Stationary Air Power systems for facilities. Sullair is a major American manufacturer of portable and stationary rotary screw air compressors designed for commercial and industrial use.

What is a Sullair air end?

The heart of a Sullair industrial air compressor is the Sullair Air End. We have more than five decades of experience with rotary screw technology, and we keep finding ways to improve it. These decades of proven reliability are a testament to the quality of the Sullair Air End. Benefits of the Sullair Air End include:

Why should you choose Sullair oil flooded industrial air compressors?

The dynamic range of Sullair oil flooded industrial air compressors helps provide peace of mind at any step of your operation. These key pillars consistently drive the quality of Sullair compressed air solutions. It's a promise we keep with every machine we make. Backed by the Sullair Brand Promise: Reliability, Durability, Performance.

Are Sullair air compressors sustainable?

Technological Prowess, Sustainable Operations Embedded with innovative engineering, Sullair's air compressors are a blend of cutting-edge technology and energy efficiency. They are designed to minimize operational costs while promoting a sustainable operational environment.

Why did Isaic choose Sullair & metropolitan air compressor?

A quiet and reliable air compressor was at the top of Curly's requirements when he built his new garage. Sullair fit the bill. ISAIC, a Detroit-based non-profit apparel manufacturer, uses compressed air as they pivot operations to help provide PPE to local hospitals. Learn why ISAIC chose to partner with Sullair and Metropolitan Air Compressor.

What are the benefits of a Sullair air end?

Benefits of the Sullair Air End include: Sullair compressors are designed with accessible components for maintenance and servicing. Many models feature removable hinged door panels that are simple to remove, making service and maintenance quick and easy.
