What is rig equipment?

Our Rig Equipment team designs, manufactures, and sells land rigs, complete offshore drilling packages, and drilling rig equipment and components designed to mechanize and automate complex drilling rig processes. Our prolific portfolio includes several industry-first equipment innovations including the top drive and iron roughneck.

What is a multi-environmental drilling rig?

We design and build multi-environmental drilling land rigs, for conventional and unconventional petroleum resources, which can operate in residential/urban areas, National Parks / Reserves, or any protected environment during animal migration seasons. The Drilling Control System (DCS) is at the heart of your drilling rig operations.

Where can I find a rig location?

Scandrill Rig Locator, your source for rig availability and current location information. SCANDRILL, INC. has provided land contract drilling services to independent and major oil and gas exploration companies.

Why does a drilling rig have an opening?

as been designed to allow for easier positioning and access of the work material. An opening to one side of the drilling rig has been intentionally designed without any obstacles such as any frame material in the way. This will reduce the risk if electrical systems are properly connected before operation and properly disconnect

How much feedback can a drill rig use?

to collect and use as feedback in the drilling rigs cannot exceed 1.5" and the design considerations into engineering specifications, it was important to recognize when, the most common failures have happened at the top of the drill pipe rotating and transfers the full torque of the drilling motor into the drill pipe. Stuck pipe

Who is Precision Drilling?

PRECISION DRILLING Rig Locator, source for rig availability and current location information Precision is a top drilling company in the US has a reputation for operating safely, lowering customer risks and costs, developing people, generating financial growth and attracting investment.
