

Water well drilling rig sticker requirements and standards

How are water well standards determined?

Water well standards are determined by the NYS Department of Health (DOH). Appendix 5-B, Standards for Water Wells contains specifications for location, construction, well yield, pumps, control of flowing wells, separation standards, well decommissioning, and more. ECL §167.15-1502 provides definitions of terms included in ECL §167.15-1525.

What are the requirements to operate a rig?

1. In addition, the rig owner must provide proof of class (Rig Certificates) maintenance according to inspections by relevant inspecting authorities, proof of insurance and all current certifications and clearances required by local regulations to carry out rig operations. 2.

What are the requirements for a rig inspection?

1. The rig inspection survey must be carried out by a recognised competent third-party in conjunction with the Well Operations and HSE functions. 2. The findings of the inspection must be prioritised and ranked. Items identified as having significant impact on mechanical integrity or safety of the rig will be classified as 'critical'.

How do I register a water well contractor?

Submission of a NYS Water Well Contractor Registration Form (PDF). The registration form may be completed and submitted online using DEC's online form tool, nForm. A check or money order for the \$10 annual registration fee. All water well activities must be supervised by a person on-site who has taken and passed appropriate exams.

What are the survey requirements for a classed drilling system?

Surveys of classed systems are based on the classification designation and the listing of the equipment on the unit's survey status. All requirements apply where all drilling systems covered in this Guide are classed. Where class has been adjusted to one or more sub notations per 1-2/3, periodic surveys of the applicable systems will apply.

Does a water well contractor need to register with DEC?

ECL §167.15-1525 requires any business conducting water well drilling activities to register annually with DEC before doing business anywhere in New York State. The water well contractor must notify DEC prior to commencement of drilling a water well and file a Water Well Completion Report with DEC upon completion of a water well.
