

# Yibin twin-screw air compressor manufacturer address

What is a twin-screw compressor?

This is the principle behind screw compressors known as the twin-screw type. Various types of screw compressors are designed to accommodate different air volumes, pressures, screw shapes, rotation directions, and the presence of oil, ensuring flexibility to meet specific requirements.

Where is screw air compressor made?

The company was established in Zhengzhou city, Henan. The factory area is about 38000+square Meter. Annual capacity of screw air compressors is more than 3000 units.

What is a screw compressor?

A screw compressor is a type of compressor that employs screws to continuously compress fluids. One notable example is the air compressor, where air drawn in from the intake is compressed between a pair of screws and discharged as compressed air. This is the principle behind screw compressors known as the twin-screw type.
